

ΕΙΔΟΣ
EIDOS

SAFETY CONSULTANCY
FIVE STEPS AWAY

1 Location

Eidos offices are cleverly located around the world in the epicenters of Mediterranean Area, South America and Asia.

Our headquarter is just 90 minutes away from London, and 3 hours from Moscow by plane.

Middle East Countries are just two time zones away from Italy, reachable with daily no stop flights.

4 Our "4 *ity*" approach

Eidos involves full time employees trained in house on Safety Studies (no freelance Safety Analysts at Eidos!) to guarantee you:

- DISPOSABILITY** You have your time schedule, we will conform to it.
During your project our HazOp Chairman doesn't follow other projects and doesn't have to shop around for the following job!
- CONTINUITY** You explain your project just once.
Your Eidos Consultants will be the same for all the project lifespan.
- FLEXIBILITY** We are a small company focused just on Safety Consultancy and we suit your way of work and needs.
- UNIFORMITY** You hired Eidos to use Eidos approach.
The only way to accomplish it, it's to involve Eidos internal personnel groomed in house.

2

Independence

Eidos is a totally independent company focused only on safety consultancy and is fully owned by its President.

No conflict of interests,
no preferred customers,
no financial ties,
no additional services to sell.

Just straightforward consultancy.

3

Methods

Eidos methods are based on international standards used all over the world.

We develop studies that are fully compliant with national and international laws and guidelines.

5

Transparency

We have a “no hassles/no issues” approach to accounting.

In HazOp studies - for example - you will be invoiced only for the days spent doing HazOp analysis at your premises. All the time spent preparing the HazOp sessions, travelling, writing the study, reviewing the mitigations/improvements, etc. is already included in our daily rates at your office. We have also QRA rates based only on HazOp hours (the only activity you can easily measure: we do it together!).

Of course, if you prefer so, we can also submit tenders based on lumpsum prices.
